**Palm Beach County Supervisor of Elections Office**

**Alerts Voters of a Mailing from The Voter Participation Center (VPC)/Center for Voter Information (CVI)**

**PALM BEACH COUNTY, FL** – Wendy Sartory Link, Palm Beach County Supervisor of Elections, is alerting voters of a mail campaign sent by The Voter Participation Center (VPC)/Center for Voter Information (CVI). This mass mailing will be sent to over 188,000 Palm Beach County residents and includes potentially misleading information to registered voters and other residents. Voters have reported receiving pre-filled registration forms for deceased pets, voters who died 20 years ago, deceased children, and people who have never lived in Florida.

The Voter Participation Center (VPC)/Center for Voter Information (CVI) is a third-party organization and is **not affiliated** in any way with the Palm Beach County Supervisor of Elections office, the state, or other local election officials. The VPC/CVI mailing lists are often created from data that is outdated or incorrect which results in voter registration applications being sent to registered voters, deceased persons, minor children, and even pets. This mailing has already caused confusion and concern among voters.

The Palm Beach County Supervisor of Elections is the official source for information related to voter registration and elections in Palm Beach County.

If you are a registered voter and receive this mailing, this does not mean that the status of your existing voter registration information has changed. You can verify your existing voter registration information anytime online at [www.registertovoteflorida.gov](http://www.registertovoteflorida.gov), or by calling our office at 561-656-6200.
